# Monitors

# G Series

The Acer G Series displays engaging high-definition visuals and crystal-clear text on its cinematic widescreen. The brilliant design and simplified functionality make the great value of this monitor easy to see!

## Impressive design

The chic black bezel and aviation-inspired base present a polished look that's eye-catching as a desktop PC complement or secondary notebook display.

## Brilliant display

The superior resolution, fast response time, and high contrast ratio provide extra-fine details and smooth movement for your favorite entertainment. The 16:9 aspect ratio frames movies and HDTV content perfectly. What's more, two built-in speakers (optional) deliver nice sound to accompany the awesome graphics!

## Straightforward functionality

Just press the input key on the main menu and the G Series automatically searches signals across its VGA, DVI and HDMI® ports. A press of the Empowering Key launches the Acer eColor Management onscreen interface for adjusting the setup and color to create a personalized viewing experience.

## G245H Bbid
